

MODIFIED ATMOSPHERE

- O₂ continuous analyser -

GOLF 100

Analyzer O₂ for the machines of conditioning under modified atmosphere.

Apparatuses Bi-function allowing to control 2 types of test:

- Uninterrupted the quality of the mixture of gas on the packing machine.
- Punctually atmospheres modified by sampling.

SPECIFICATIONS:

- ✓ Stainless steel case.
- ✓ Washable frontage.
- ✓ Calibration simplified by 2 keys.
- ✓ 2 inputs gas.
- ✓ 1 output 4/20 mA.

TECHNICAL CHARACTERISTICS

- Sensor O₂ electrochemical (time life 4 years in air)
- Scale : 0 à 100%
- Resolution 0,1%
- Response time : 12 s
- 1 input front gas for small boats
- 1 input gas postponed uninterrupted
- 1 output 4/20 mA
- User T° : +2 à +40°C

- Power : 230V - 50Hz
- Size : 20x17x16 cm
- Weight : 3,5 Kg
