

O2 / CO2 atmospheric detector

CANAL01 / 02

These light and portable detectors are very easy to use and allow you to view the oxygen level or carbon dioxide in a risk area. They hang on the belt with a clip and have a digital display on top.

- CANAL01 measures O2 and has a very long autonomy
- CANAL02 measures CO2 and is equipped with a rechargeable battery and a charger.

Features

- Pocket and economical device
- Easy to use
- Great autonomy
- Long life O2 sensor
- Infrared CO2 sensor

CARACTERISTICS

DETECTOR		SENSOR	O2 (CANAL01)	CO2 (CANAL02)
- Usage t°	+5 à +40°C	- Technology	Electrochemical	NDIR
- Protection	IP41	- Scale	0-100%	0-1%
- Display	Digital	- Precision	+/- 1% relatif	+/- 2%
- Weight	150g	- Resolution	1%	0.01%
CANAL01 (O2)		- Response time	9 s (T90)	12 s (T90)
- Power supply	Battery 9 V (6LR61)	- Lifetime	>4 years in air	>10 years
- Autonomy	1000 H			
- Dimensions	9x6,5x2,8 cm			
CANAL02 (CO2)				
- Power supply	Battery 9V NiMh			
- Charger	100-240V - 50/60 Hz			
- Autonomy	>10H			
- Dimensions	11x6,5x2,8 cm
