# O2&CO2 Analyzer for MAP

# **BOX120-b II**

Analyzers for measuring modified atmospheres in agro-food packaging.

The device has been designed to be installed directly at the end of the production line or in the laboratory and to carry out a large number of measurements. His suitcase is waterproof, robust and easy to carry. Easy to use, a measurement is triggered at the touch of a button. It stops when the sensors have finished reacting and the values are locked; every measurement becomes almost automatic.

### **Features**

- O Code-secured calibration menu
- O Blocking values after each measurement
- Obstructed gas circuit detection
- O Low volume of sampling
- Automatic calibration of O2 to air
- Long life O2 sensor

# Complete delivered device

- Spiral sampling kit and charger
- Septums, filters and needles
- O Calibration certificate / Instructions for use

### **OPERATING COUNCIL**

No need to suck air between each measure. The more you do the tests, the more you win in speed.

Measure O2 -1
